

FCP 4100 – 8100 INT

/ Inside linear welding system

/ TIG / ArcTIG / Plasma / CMT

Linear seam welders of the FCP 4100 - 8100 INT series are special for inside welding of cylindrical parts with big diameters e.g. tanks & vessels.

FEATURES

- / Welding of tanks / vessels with a length up to 8000 mm (depending on model variant)
- / Welding processes: TIG, ArcTIG, Plasma, CMT
- / Welding carriage configured with motorized horizontal and vertical slides (OSC / AVC), laser pointer for centering support, wire feeder on carriage and optional ArcView camera
- / Pneumatic clamping system with clamping plates manufactured in special copper alloy
- / Hydraulic adjustable supporting bar with rollers, fully adjustable to the parts diameter
- / Hydraulic height-adjustable lower beam with water-cooled copper bar
- / Automatic mandrel latch (hydraulic)
- / HMI-T10 system controller with 10" touch screen and remote control guarantees intuitive operation, real-time welding process visualization and welding data documentation
- / Cooling unit for copper bar and torch

/ Supporting bar with rollers

/ Height adjustable lower beam

/ Adjustable clamping plates

/ Perfect Welding / Solar Energy / Perfect Charging

THREE BUSINESS UNITS, ONE GOAL: TO SET THE STANDARD THROUGH TECHNOLOGICAL ADVANCEMENT.

What began in 1945 as a one-man operation now sets technological standards in the fields of welding technology, photovoltaics and battery charging. Today, the company has around 4,550 employees worldwide and 1,241 patents for product development show the innovative spirit within the company. Sustainable development means for us to implement environmentally relevant and social aspects equally with economic factors. Our goal has remained constant throughout: to be the innovation leader.
